General Provisions

These Terms shall apply to and form an integral part of any Seller's Offer and any Contract.

Any provision of the Purchaser's purchase order, offer, acceptance or other document or requirement of Purchaser which forms a part of the Contract and is in conflict or inconsistent with these Terms or which imposes on Seller liabilities that are additional to or different from those set forth in the Terms shall not apply to the Contract and is of no force or effect. Purchaser's terms of purchase, if any, shall not apply to the Contract and are of no force or effect.

These Terms shall prevail over any inconsistent or conflicting provision of the Contract (including Seller's Offer), except only where (i) the Seller has by way of its Seller's Offer or a duly signed document expressly amended a provision of these Terms and has referenced the specific provision of these Terms being amended or (ii) these Terms expressly provide for an option to deviate from the respective provision in Seller's Offer or, as the case may be, in the Contract.

1. Scope of Supply:

- 1.1 Seller's works shall be limited to the Scope of Supply. The Purchaser shall be responsible for the Purchaser Scope.
- 1.2 Where the Scope of Supply is required to interface with other equipment of Purchaser or the Purchaser's other Sellers, Purchaser shall be responsible for such interface, including its dimensions and compatibility.

2. Change Orders / Contract Execution / Documents:

- 2.1 Purchaser may propose Change Requests. In case of a Change Request, Seller will notify Purchaser of how the proposed Change Request can be carried out and which modifications to the Contract (including Contract Price, schedules, etc.) are required. If Purchaser wishes to proceed with a proposed Change Request, the Parties will agree to a Change Order. Seller shall have no obligation to carry out any Change Request until a written Change Order has been agreed and signed by both parties; however, if Purchaser requests that Seller proceeds with the Change Request (without a written Change Order) and Seller, in its sole and absolute discretion, does so, Seller shall be entitled to reimbursement of its resulting Costs and to an extension of time for any resulting delay. Seller may request Change Requests to be executed at its expense; such Change Requests will be granted by Purchaser absent material reasons.
- 2.2 Pre-delivery inspections and tests, if any, shall be stipulated in and limited to those set out in the Contract. Any pre-delivery inspections and/or tests not provided for in the Contract shall be subject to the change order procedure in Clause 2.1. If not stated otherwise, such pre-delivery inspections and tests shall be performed in accordance with Seller's standard inspection procedures.
- 2.3 Where Seller issues documents for approval, these must be approved (with comments, if any) and returned to Seller without undue delay but in any event no later than seven (7) days after their respective submittal; otherwise such documents will be deemed approved. Purchaser may refrain from giving its approval only if and to the extent it can show that the document in question is contrary to the requirements of the Contract.
- 2.4 The Seller reserves the right to substitute items of the Scope of Supply provided that any such substitution shall be with an item of equal or better standard. Seller may execute the Contract pursuant to its own plans, procedures, and working methods, except to the extent they conflict with any express provision of the Contract.
- 2.5 Purchaser shall ensure that each delivery and other activity of the Purchaser Scope is commenced, performed and completed in a timely and sufficient manner so the Seller is able to commence, perform and complete its Scope of Supply (including Site Services) in accordance with the Schedule and without delay, disruption, hindrance or obstruction of any kind.
- 2.6 Seller reserves the right to adjust the Contract Price for any escalation in the cost of materials or any surcharge (a) due to tax, tariff, or other price change in material supply that occurs prior to the formation of the Contract, or (b) due solely to tariff changes, that occur after formation of the Contract, but prior to completion of the Scope of Work ((a) and (b) each a "Contract Price Adjustment"). Any Contract Price Adjustment shall be based solely on an escalation of Seller's direct cost for (x) material purchased to produce the Scope of Work, or (y) equipment supplied by a subsupplier, whichever is applicable.

3. Site Services:

- 3.1 If Site Services are included in the Scope of Supply, Purchaser shall ensure that Seller has safe and appropriate access to the Site at all times required by Seller. Where the Contract provides for Acceptance Tests, Annex A shall apply.
- 3.2 In case any Site Services to be provided by Seller which might have interfaces with any building or other civil works not provided by the Seller, the civil works (including the ceilings, walls, floors and related penetrations) shall be ready by such time and in such condition as may be required by the Contract and/or the Seller in writing. Any failure by Purchaser to perform this obligation will entitle Seller to suspend its Site Services upon written notification thereof, stating which civil works are delaying, disrupting, hindering or obstructing Seller's works.
- 3.3 For the purpose of the Seller carrying out the Site Services, the Purchaser shall be responsible for providing all of the following:
 - (a) civil works;

 - (l) special tools required for commissioning of the Goods; and/or

- 3.4 Under no circumstances will Seller be responsible for the acts and/or omissions of any other Seller or person provided or made available by Purchaser or for works or any equipment supplied by them, either by way of a deemed employer or otherwise, or for their payment, welfare, provision of safety equipment or safe means of working, or for their work, productivity or workmanship. Purchaser shall be solely responsible for any failure of such persons or Sellers to strictly comply with the instructions and requirements of Seller. Purchaser shall indemnify, defend and hold Seller harmless from any resulting claims and liability for loss or damage to any property or for personal injury or death in any way arising out of the acts or omissions of any such persons and Sellers, save in each case to the extent directly caused by the negligence of Seller.
- 3.5 In the event Seller through no fault of its own is unable to obtain, either at all or within the time required for keeping the Schedule, any required visa or work permit for the personnel to travel to the Site or to carry out the Site Services, the provisions of Clause 6.6 shall apply.

4. Payment:

- 4.1 Unless otherwise expressly stated in the Seller's Offer or Contract, payment of the Contract Price by the Purchaser shall be as follows:
Fifty (50) % of the total Contract Price shall payable upon effectiveness of a Contract, due to be paid within fourteen (14) days after receipt of Seller's invoice
Fifty (50) % of the total Contract Price shall be payable immediately upon presentation of the ready for shipment notice and respective invoice.
- 4.2 All payments are to be made by electronic transfer, net cash without any deduction, in Euro unless a different currency is stated in the Seller's Offer and within fourteen (14) days of the date of Seller's applicable invoice.
- 4.3 Payment shall not be deemed effected until irrevocably available funds have been received in full by Seller in its nominated bank account.
- 4.4 Purchaser shall notify Seller in writing of any objection to the validity of any invoice within five (5) days of receipt, absent which the invoice shall be deemed valid and payable.
- 4.5 Purchaser shall have no right of set-off, abatement or right to make any form of withholding or retention against any payment of the Contract Price. To the extent permitted by applicable law, Art. 373 para. 1 and 375 Swiss Commercial Code of Obligations shall not apply.
- 4.6 The Seller shall have no obligation to commence any Scope of Supply until the first instalment of the Contract Price has been received by the Seller according to Clause 4.3 and, if applicable, the Letter of Credit as per 4.1 has become operative in favour of Seller.

- 4.7 If any payment and/or the operative Letter of Credit, if applicable, is not received by the applicable date for payment, Seller upon seven (7) days' written notice to that effect, may suspend all or part of its performance under the Contract until the payment is received in full and/or the Letter of Credit has become operative in favour of Seller.
- 4.8 In the event of any delay in the commencement of the Scope of Supply for reasons attributable in whole or in part to Purchaser and/or any suspension by Seller pursuant to Clause 4.7 or other provision of these Terms, Clause 6.6 shall apply. If any payment has still not been received in full by Seller twenty-one (21) days after the applicable due date, then, irrespective of whether or not Seller has commenced any portion of the Scope of Supply and/or suspended its works, Seller shall be entitled by written notice with immediate effect to terminate the Contract pursuant to Clause 10.3.
- 4.9 Where the achievement by the Seller of a certain milestone or activity that is necessary for the Seller to become entitled to all or a portion of the Contract Price is delayed by the Purchaser or third persons for whom the Purchaser is responsible, then without prejudice to any other right or remedy which the Seller may have, the Seller shall for payment entitlement purposes be deemed to have achieved the milestone or activity by latest fourteen (14) days after the date on which it would have been achieved had there been no delay.
- 4.10 The due date for payment of sums payable to the Seller under the Contract other than the Contract Price shall be fourteen (14) days after receipt by the Purchaser of the applicable Seller's invoice and the foregoing provisions of this Clause 4 shall equally apply to such sums.
- 4.11 4.11. Should Seller be confronted with circumstances which may jeopardize Seller's payment titles, including, a material adverse change of Purchaser's financial situation, logistic or planning complexities, situation of the Site, limited or non-existing retention of title under applicable laws, – then Seller may request Purchaser to provide sufficient securities or to insist on partial or full upfront payments. Alternatively, in addition to Clause 4.8. of these Terms, and on proviso such jeopardizing circumstances – namely Purchaser's unfavorable financial situation - have occurred after submission of the Seller's Offer and/or effectiveness of Contract, or had existed previously but without Seller's knowledge (or obligation to know), Seller may insist to consider the entire Contract Price (and any other sum that may be at stake) as immediately due and to insist on full payment within an appropriate period, together with an announcement, at Seller's sole discretion, of contract withdrawal and/or damage claims, or, again at Seller's sole discretion, to request Purchaser to immediately pay a conventional fine of ten (10) % of the entire Contract Price, irrespective of Purchaser's negligence. For the sake of clarity, (i) titles under this Clause 4.11. shall apply cumulatively to any other titles under contract and/or law, and (ii) Seller may request a conventional fine in addition to late payment interests, up to a cap of fifteen percent (15%) of the total Contract Price.
- 5. Taxes:**
- 5.1 The Contract Price and any other amounts to be paid to Seller are exclusive of, and Purchaser shall be responsible for, all duties, taxes (including value added, sales, use, business, excise or withholding taxes), assessments or charges of any kind, except to the extent any taxes or other charges that are assessed on the profits of Seller or which under the applicable Incoterm relating to delivery of the Scope of Supply are payable by the Seller.
- 5.2 If any duties, taxes, assessments or charges are imposed on Seller by authorities in the country where the Scope of Supply will be installed in connection with any Site Services and/or in connection with the Contract itself, Purchaser shall reimburse Seller all such amounts upon first written demand.
- 5.3 Where the Purchaser is obliged by applicable law to make a deduction from any payment due to the Seller in relation to any such duties, taxes, assessments or charges, the Purchaser shall increase the payment to be made such that the net payment received by the Seller is without any such deduction.
- 6. Delivery / Risk of Loss / Delays:**
- 6.1 Seller shall deliver the Goods according to the applicable Incoterms by the date specified in the Schedule. If no Incoterm is stipulated, delivery shall be Ex Works manufacturer plant as specified by Seller. If no manufacturer plant is specified, then delivery shall be Ex Works Seller's premises. In case the respective stipulated Incoterm obliges Seller to perform any import formalities for the import into the country of delivery, Purchaser at its cost is obliged to support Seller in any way reasonably required by Seller. Any delay (other than a delay by Seller) in completion of import formalities shall be an event entitling the Seller to an extension of time and compensation of Costs according to Clause 6.6.
- 6.2 Transfer of risk of loss and damage to the Scope of Supply shall be in accordance with the stipulated Incoterm applicable at the date of Seller's Offer. The inclusion of any Site Services within the Seller's Scope of Supply shall not alter this transfer of risk of loss and damage and shall not create any assumption by Seller of any form of care, custody and control over any Purchaser Scope and/or the Site.
- 6.3 Statements of packing, measurements and gross weight are an approximate guide and not binding on Seller.
- 6.4 Seller may deliver the Scope of Supply from multiple locations, including different countries and may use different types of transport. Partial deliveries and transshipments are allowed. To the extent permitted by applicable law, Art. 377 Swiss Code of Obligations shall not apply.
- 6.5 Upon delivery or the provision of any Scope of Supply, Purchaser will inspect the relevant Scope of Supply and promptly (but in no event more than seven (7) days after delivery) inform Seller in writing of any Defect under Clause 8.1.1. Seller will thereupon remedy any such omission or Defect. If Purchaser fails to accept any Scope of Supply when tendered at the point of delivery, Seller may deliver the same to a bonded warehouse, at Purchaser's cost and risk, including insurance and storage costs, and shall be deemed to have fulfilled its delivery obligations under the Contract and be entitled to payment of any amounts contingent upon delivery. Except where an Acceptance Test is stipulated and governed by Clause 8.1 or 8.2 and where Purchaser has given written notice pursuant to the first sentence of this Clause 6.5, the Goods and documents included in the Scope of Supply shall be deemed accepted for all purposes at their respective delivery and Site Services shall be deemed accepted for all purposes at their respective completion, provided such acceptance shall not be with prejudice to Purchaser's warranty entitlements under Clause 8.1 or Clause 8.2.
- 6.6 In case of (i) any Change Order pursuant to Clause 2.1; (ii) any suspension; (iii) exceptionally adverse climatic conditions; (iv) unforeseeable shortages in the availability of personnel or goods attributable in whole or in part to Force Majeure; (v) any delay, disruption, impediment or prevention of Seller or any breach of contract caused by or attributable in whole or in part to Purchaser (including third parties for whom it is responsible), or (vi) any other event or circumstance for which these Terms or the Contract gives Seller an entitlement under this Clause, Seller shall be entitled to payment by Purchaser of its additional Costs and to an extension of time for any delay incurred. Seller shall give written notice to Purchaser of any event giving it an entitlement under this Clause within a reasonable time after becoming aware of the event.
- 6.7 If Seller is more than three (3) weeks late in delivering the Goods according to the applicable Incoterms for reasons attributable to the fault of Seller (and not for any reasons attributable in whole or in part to Purchaser), Purchaser shall be entitled to liquidated damages (and not a penalty) in an amount equal to zero point one (0,1) % of the portion of the Contract Price attributable to the value of the delayed portion of the Goods for each full week of delay up to an overall aggregate maximum delay liquidated damages of two point five (2,5) % of the Contract Price. Such liquidated damages shall not be due where Seller has failed to deliver only minor portions of the Goods that do not delay completion of the Scope of Supply or where Purchaser has not incurred any resulting loss or damage. Payment of the liquidated damages shall constitute full and complete satisfaction of any claim of Purchaser, and Purchaser's sole and exclusive remedy, against Seller arising from or in connection with any delay of the Seller in connection with its Scope of Supply. Any and all other claims for delay or late performance, including any delay in meeting any intermediate or other dates or milestones, shall be excluded. To the extent permitted by applicable law, Art. 107, 109, 366, 376 para. 1 and 2 Swiss Code of Obligations shall not apply.
- 6.8 Each party shall be released from the performance of its obligations under the Contract to the extent such performance is delayed, disrupted, hindered or obstructed by Force Majeure. A party shall give written notice of the occurrence of any Force Majeure within fourteen (14) days of becoming aware of its occurrence. In case such Force Majeure delays should exceed three (3) months in the aggregate, each party shall be entitled, to terminate the Contract by notice, without the need for any court order or other judicial proceedings, with immediate effect. In case of such termination, Seller shall be entitled to all payments then due but unpaid on the date of termination and to all costs and expenses incurred in respect of the following (i) performing the Contract to date; (ii) ceasing its obligations under the Contract; (iii) in contemplation of carrying out all of its obligations under the Contract; (iv) demobilization; and (v) cancelling any related subcontract (including reasonable cancellation fees), and in each case to the extent not covered by the Contract Price as paid to Seller on the date of termination. Save for the obligations under Clause 9, neither party shall have upon termination of the Contract any other or further liability or obligation to the other party under or arising out of the Contract to the maximum extent permitted by applicable law.
- 7. Ownership:**
- 7.1 Title in the Scope of Supply will transfer to Purchaser when Seller has received payment of the Contract Price in full. This retention of title until payment in full shall not affect the passing of risk of loss or damage in the Scope of Supply pursuant to Clause 6.2. Until payment of the Contract Price is received in full, the Scope of Supply shall not be sold, pledged or otherwise encumbered or (unless otherwise specified in the payment terms) used for commercial production without Seller's prior written consent. Breach of Purchaser's obligations under this Clause shall entitle Seller to claim damages.

8. Warranties:

8.1 Warranties regarding Goods, Documentation and Site Services:

- 8.1.1 Subject to the provisions of this Clause 8.1 and Clause 8.2, the Seller warrants that the Scope of Supply shall be free of Defects. This warranty shall expire on the last day of the Warranty Period. To the extent permitted by applicable law, Art. 368 para. 1 and 2 Swiss Code of Obligations shall only apply if Defects have been caused directly and solely by Seller's fraud, wilful or gross negligent action
- 8.1.2 Seller shall be responsible for remedying any Defect under Clause 8.1.1 provided that Purchaser promptly gives detailed written notice to Seller of the Defect and in any event within seven (7) days of discovery and before the end of the Warranty Period.
- 8.1.3 To the maximum extent permitted by applicable law, the Seller shall have no liability for any form of Defect under Clause 8.1.1, latent or otherwise, for which it received written notification after the Warranty Period. For the avoidance of doubt, the warranty period of any Scope of Supply that has been rectified by the Seller during the Warranty Period shall expire at the expiry of the Warranty Period.
- 8.1.4 Where Seller is responsible for a Defect under Clause 8.1.1, Seller shall investigate and rectify the same as soon as reasonably practicable (taking into consideration the nature of the Defect, lead-time for replacement parts, etc.). Rectification of a Defect under Clause 8.1.1 relating to Goods included in the Scope of Supply shall be by way of repair or replacement, at the Seller's option, of the relevant part of the Goods that is defective. Rectification of a Defect under Clause 8.1.1 relating to services (including Site Services) and documentation included in the Scope of Supply shall be by way of re-performance by Seller of the relevant part of the service or documentation that is defective. Such rectification may include remediation implemented via a remote access solution (e.g., via an IoT edge device or IoT gateway). Purchaser shall in each case give Seller all necessary and safe access to and possession of the Site. Purchaser also grants Seller the right to use any remote access capability installed by or for Seller in relation to the Scope of Supply or installed equipment at the Site for investigating and rectifying Defects. Where Seller fails to carry out its obligations within a reasonable time, Purchaser shall be entitled, upon giving not less than seven (7) days' prior written notice to that effect, to have the Defect in question rectified by a third party at the cost of Seller, to the extent Seller would have been responsible for such cost under Clause 8.1, Purchaser has reasonably mitigated its costs and Seller has not commenced rectification within the noticed period and diligently pursued rectification thereafter. The Seller shall have no responsibility for any such works performed by a third party. Any replacement parts shall be delivered according to the same delivery (Incoterms) terms as specified in the Contract. Purchaser shall be responsible for all labour, equipment, costs used or incurred in the disassembly, removal, transport, installation and commissioning of repaired or replaced defective parts. Seller shall not be deemed to have breached any of its warranty obligations where it has rectified a Defect according to the foregoing. Should Purchaser disable or otherwise restrict, hinder or prevent Seller from remotely accessing the Scope of Supply or related installed equipment at the Site, Seller's ability to perform its warranty obligations may be impaired or delayed; any investigation or resolution of Defects by Seller may be incomplete or inaccurate; Seller may incur additional costs in connection with the investigation and/or the rectification of a Defect (including the incurrence of travel costs), which Seller will be entitled to recover from Purchaser; Seller's warranty obligations will be void insofar as Seller's ability to discharge such obligations are materially impaired.
- 8.1.5 Seller's responsibility for any Defect under Clause 8.1.1 is subject to the condition that it is not caused by one or more of the following: (a) normal wear and tear of parts; (b) use of non-original spare parts; (c) use of feed, consumables or utilities not in strict conformity with the specifications stated in the Contract or in Seller's written manuals; (d) any failure of upstream and/or downstream equipment; (e) modifications without Seller's express prior written consent; (f) use of corrosive or abrasive substances; (g) the storage, handling, use, operation or maintenance of any Goods which is not in strict conformity with good engineering practice, the Contract or any written requirements of the Seller, including any failure to comply with Seller's written manuals and instructions and Purchaser's own quality assurance requirements; (h) information, services, personnel, equipment or other items supplied by or for Purchaser; (i) failure to permit Seller to perform Acceptance Tests, supervision of installation and/or installation; (j) Purchaser's knowledge of the Defect, before or until completed inspection, as per Clause 6.5, and/or (k) other conditions or circumstances not due to the fault of Seller (collectively, "Warranty Conditions"). (j) Purchaser's Knowledge of the Defect, before or until completed inspection, as per Clause 6.5
- 8.1.6 If the Contract provides for Acceptance Tests for purposes other than those stipulated in Clause 8.2, such tests shall be performed to verify whether the Goods is free of material Defects under the warranty stated in Clause 8.1.1. In such case, these Acceptance Tests will be subject to the provisions of paragraphs 1, 2 and 4 of Annex A. Seller's obligations in respect of these Acceptance Tests will be discharged in full and Purchaser shall be deemed for all purposes to have accepted the Scope of Supply upon the earliest of: (i) Purchaser takes the Goods into use; (ii) the Acceptance Tests have not been held or passed for reasons attributable in whole or in part to Purchaser within 1 month from completion of commissioning, 3 months from completion of installation or 4 months from readiness of delivery of the main Goods, whichever is earliest; or (iii) a material Defect is identified during the tests and Seller has rectified the Defect according to the provisions of Clause 8.1.4.

Used Goods included in the Scope of Supply are sold as-is with no warranty, express or implied.

8.2 Process Warranties:

- 8.2.1 Subject to the provisions of this Clause 8.2, Clause 8.3 and Annex A, the Seller warrants that the Goods will meet the Process Warranties (if any). This warranty expires when the Process Warranties are discharged according to paragraph 3 of Annex A.
- 8.2.2 Technical figures, data and other descriptions of any kind concerning or relating to the process, performance or functionality of the Scope of Supply, including its individual parts, which are not expressly and specifically labelled "Process Warranty" shall not constitute a Process Warranty as that term is used in these Terms. Such figures, data and descriptions shall be indicative only and non-binding.
- 8.2.3 All Process Warranties, if any, are subject to: i) a steady and constant stream of feed, materials and utilities in strict conformity with the specifications stated in the Contract; ii) the furnishing by Purchaser of trained, qualified and sufficient personnel as required by Seller during the Acceptance Tests; iii) Seller is given access to all operating and maintenance records and data and Purchaser undertakes all analyses of product, utilities and feed as required by Seller in writing; iv) Seller performs or technically directs the performance of the Acceptance Tests; v) any Warranty Conditions to the extent not stated in the foregoing; and vi) the conditions and other provisions of Annex A.

8.3 Disclaimer and Limitations:

To the fullest extent permitted by applicable law, (i) Seller hereby excludes and disclaims all conditions, warranties, guarantees and representations that are not expressly set out in Clauses 8.1 and 8.2 above or Clause 9.6 below or which are implied, statutory, customary or otherwise and which, but for this exclusion and disclaimer, would or might subsist in favour of Purchaser, including any warranties as to fitness for purpose or merchantability; (ii) Purchaser's remedies as set forth in Clause 8.1.4 above and in paragraph 5 of Annex A shall be the Purchaser's sole and exclusive remedies in respect of any defect in the Scope of Supply, including any Defect covered by Clause 8.1 or any failure to achieve any Process Warranty covered by Clause 8.2; and (iii) Seller shall not be liable for any loss or damage, including any loss or damages described in Clause 10.5 below, caused by or resulting from any breach of warranty or any defect, including any Defect covered by Clause 8.1 or any failure to achieve any Process Warranty covered by Clause 8.2.

9. Confidentiality and IP; Software; Technical Data and Smart Equipment:

- 9.1 Purchaser shall treat all information, drawings and data of any kind made available or provided by Seller under the Contract whether orally, electronically, in writing, visually (such as through site visits, tests or audits) or otherwise and regardless of whether marked "confidential" ("Confidential Information") as private and confidential. The following information is excluded, however, and not considered Confidential Information (without prejudice to any existing copyright protection): the sale of the Goods from Seller to Purchaser and (except as may be otherwise separately agreed in writing) any offer of Seller (however excluding price and other commercial provisions), the Goods and/or processes supplied by Seller, operating manuals, training documents(s) and product brochures and delivery and/or acceptance certificates. Purchaser shall not publish or disclose Confidential Information or any particulars thereof (except as may be necessary for the purposes of the Contract, including disclosure to its and its affiliates' officers, directors and employees, and/or as required by the rules of a public stock exchange or by applicable law), without the previous written consent of Seller. Nothing in this Clause 9 shall prevent the publication or disclosure of any Confidential Information which either has come within the public domain otherwise than by breach of this provision or was already in the possession of Purchaser with a right to disclose and use such information. Further, nothing herein shall limit Purchaser to sell the Goods together with any documentation related to the Goods (other than Confidential Information) to third parties.
- 9.2 Any disclosure of Confidential Information for the purposes of the Contract shall be made against an undertaking of non-use and confidentiality from Purchaser on terms at least as stringent as set out in this Clause 9. In respect of any disclosure required by a stock exchange or by applicable law, Purchaser shall disclose only that portion of the Confidential Information it is legally required to disclose and to exercise all reasonable efforts to obtain confidential treatment for such Confidential Information.

- 9.3 The intellectual property rights in any Goods, document, Confidential Information or other information given or made available (by visual inspection or otherwise) to Purchaser under the Contract or applied to and embodied in the Scope of Supply and the Site Services shall remain the exclusive property of Seller (or its subSellers).
- 9.4 Subject to payment in full by Purchaser of the Contract Price, Purchaser shall have a non-exclusive, non-transferable and royalty free license to use the intellectual property rights in the Scope of Supply and any Confidential Information provided by Seller for the sole purpose of operating and maintaining the Goods provided under the Contract and strictly for the application and use set out in the Contract, subject at all times to subsisting third party rights and the obligation of confidentiality and the Seller's receipt of payment in full of the Contract Price. The Purchaser may transfer the intellectual property rights in the Scope of Supply only together with the title in the Scope of Supply.
- 9.5 Seller shall not be liable to Purchaser for the infringement of any intellectual property rights unless Seller's design of the Goods is found by final court decision against Seller to infringe an apparatus patent claim of a third party, provided that Seller shall have no such obligation if the claim is based on or relates to: (i) the interconnection, combination or use of the Goods with equipment, services, systems or software not supplied by Seller; (ii) specifications, including designs and instructions, prepared by the Purchaser or third parties on its behalf; (iii) modification of the Scope of Supply without Seller's prior written consent; (iv) any process, method, product or by product process patent claim; (v) the use of the Scope of Supply as part of a Purchaser process, including any product thereby produced or processed; (vi) any patent issued outside the country where Seller has its registered offices; or (vii) any patents owned or acquired by Purchaser or by any holding company and subsidiary of Purchaser. In case an exception applies, Purchaser shall be fully responsible for such claim and pay any costs incurred by Seller.
- 9.6 This clause applies insofar as any software, programming, control system or automation of any kind (collectively "Software") are included in the Seller's Scope of Supply. Software also includes all enhancements, upgrades and related documentation that Seller may make available in its sole discretion. Upon receipt of the full Contract Price and subject to Purchaser's compliance with its obligations under this clause, Seller grants Purchaser a non-exclusive and (except as stated expressly below) a non-transferable license to use the Software solely for operating the Goods for the purposes and within the requirements stated in Seller's Offer. Except as stated below, Seller warrants for a period of one year after the date (whichever is earlier) the Software is shipped or otherwise first made available to Purchaser ("Software Warranty Period") that the Software, when properly installed and used in conformity with the Contract, will function substantially in accordance with the software specifications (if any) stated in Seller's Offer. Seller does not warrant that the Software meets Purchaser's or any third parties' data protection or IT security requirements. If Purchaser discovers a nonconformity with the warranty and provides Seller promptly with a detailed written notice of the nonconformity within the Software Warranty Period (including a description of the nonconformity and complete information about its discovery), Seller will use commercially reasonable efforts to substantially correct the nonconformity by, at its option, one of the following: (i) providing a suitable fix, patch or workaround which may include a future revision of the Software; (ii) making available to Purchaser instructions for modifying the Software or indicating a reasonable way for avoiding the effect of the nonconformity; or (iii) making available at Seller's facility corrected or replacement Software. Seller will have no obligation under the warranty stated in this clause in case of improper installation of the Software or any modification or configuration of the Software not authorized in writing by Seller, nor shall it have any responsibility for any non-conformities arising from Purchaser supplied software or interfacing; in each such case, Purchaser shall defend and hold Seller harmless for any resulting loss, injury or damage. In respect of any Software that is acquired by Seller from third parties, Seller's obligation will be limited to transferring to Purchaser any warranty rights obtained by Seller in respect of that Software and the non-conformity. Except as may be stated expressly in this clause, the Software is licensed as is. Seller has no obligation to provide any maintenance, enhancements, or upgrades. As between the Parties, Seller retains all copyright, trademarks, patents and other intellectual property rights in the Software and all information other than Purchaser generated information that may be used or transmitted via or processed by the Software. The Software may not be sold or otherwise transferred or given to any third party without the prior written consent of Seller and prior written agreement between Seller and the third party, except that the Software (and the license granted herein) may be transferred to persons who have acquired the Goods without obtaining Seller's prior consent. Purchaser shall not reverse engineer, modify or decompile the Software or in any other manner attempt to locate or identify the source code. To the extent that the Software contains open source software ("OS-Software"), the following applies: notwithstanding anything to the contrary in this Clause, Seller makes the OS-Software available to Purchaser on the basis of the applicable OS-Software license terms, which terms will govern Purchaser's use of the OS-Software exclusively (including, for the avoidance of doubt, with respect to warranty and liability). To the extent permitted by law, Purchaser's rights and remedies in respect of the Software are stated exclusively above.
- 9.7 Seller annually publicly discloses its audited greenhouse gas emissions according to the Corporate Value Chain (Scope 3) Accounting and Reporting Standard ("GHG protocol"). In order to increase the accuracy of its reporting on the use phase of its sold products (Scope 3.11 greenhouse gas emissions), Seller is interested in its customers' specific energy grid mix. Thus, Purchaser shall disclose towards Seller the specific energy grid mix, i.e. the share of renewable energy used to power the specific sold product, to the extent such information is collected and tracked. Purchaser shall provide the required information and shall agree, that Seller may utilize this information in an aggregated form for its annual sustainability reporting and auditing. Apart from that, this information will be kept confidential.
- 9.8 Where Seller's Scope of Supply includes a Connected Product or a Related Service or where Seller later provides (in agreement with Purchaser) a Connected Product or Related Service in relation to the Scope of Supply, GEA Group Companies each have a perpetual, world-wide, irrevocable, non-exclusive, transferable, sub-licensable and royalty-free right to generate, collect, process, analyse, store, aggregate, and otherwise use Technical Data transmitted to the GEA Cloud from the Connected Product or the Related Service for one or more of the following purposes: providing the Scope of Supply; discharging Seller's warranty and other obligations under the Contract; troubleshooting, monitoring, improving the function of and further developing the Scope of Supply, related installed equipment at the Site, the Connected Product and/or Related Services; providing Purchaser with product support and information on the Scope of Supply and related installed equipment at the Site; establishing benchmarks and optimization potentials and optimizing the Scope of Supply and related installed equipment at the Site; developing, designing, engineering, manufacturing, supplying, automating, improving, updating, monitoring and/or servicing equipment, software, cloud-based solutions, processes and services; creating and modifying algorithms, statistical analyses and artificial intelligence solutions; optimizing project execution and similar capabilities; supporting the marketing and sales efforts; and generating and using for commercial purposes any Derived Data, including with the aim of making such Derived Data available to third parties; and other similar purposes. Seller shall exclusively have all rights, title and interest in and to all Derived Data, provided that Purchaser may use any Derived Data provided to it via a Connected Product or a Related Service for operating and maintaining the Scope of Supply and auxiliary equipment at the Site.
- 9.9 Purchaser will transmit to the GEA Cloud such Technical Data as is needed or appropriate for Seller to discharge its warranty and other obligations under this Contract. Further, upon a GEA Group Company's written request, Purchaser will undertake such measures as may be reasonably required to enable such company's secure access to the Scope of Supply and its Technical Data and to provide at its discretion updates to the installed automation, software and control systems. Purchaser will enable Seller to connect, or if agreed Purchaser will connect, the Scope of Supply (or a portion thereof) during its installation or (if requested by a GEA Group Company) at a later point of time to Seller's cloud and/or IT environment or other similar solution. Purchaser will ensure that the internet or other connection to the IoT edge device or IoT gateway is fully accessible to Seller remotely and at Site and the connection meets such requirements (e.g., configuration, security, etc.) that may be issued by Seller from time to time or which are recommended or required by applicable regulations or standards. Nothing in these Terms obligates Seller to provide digital solutions; Purchaser acknowledges that Seller may offer from time to time during the Warranty Period and thereafter pursuant to separate written agreement digital solutions for the Scope of Supply. This clause does not result in any warranty or other similar obligation being given or undertaken by Seller in respect of any Technical Data or Derived Data. Seller may, in its discretion, delete any stored Technical Data at any time, provided such deletion will be in accordance with applicable laws. Except to the extent required by applicable law, nothing in these Terms requires Seller to provide any access to Technical Data or make such data available where doing so i) would result in disclosure of Seller's trade secrets; ii) could undermine the security or safety of the Scope of Supply; or iii) would result in the disclosure of data relating to the testing of new products, substances or processes that are not yet placed on the market.
- 9.10 As used in these Terms, "GEA Group Companies" means Seller and its affiliated companies; "Connected Product" means a physical product at the Site that via a component (e.g., an IoT edge device or IoT gateway), operating system or other means obtains, generates and/or collects Technical Data and communicates, or is intended by Purchaser and Seller to communicate, such data to Seller's cloud and/or IT environment or other similar solution; "Related Service" means a digital service, including software or a cloud-based solution, that enables a GEA Group Company or a third party acting on its behalf to obtain, generate and/or collect

Technical Data where the service is connected to the Scope of Supply or equipment installed at the Site in such a way that its absence would prevent the Connected Product from performing one or more of its functions or which adds to, monitors, updates, optimizes, modifies or adapts the functions of the Scope of Supply or related installed equipment; "Technical Data" means raw product data generated by the use of a Connected Product or Related Service, including relevant metadata that make the raw data usable, including without limitation data regarding the condition, operation, efficiency, productivity, availability, maintenance, status, malfunction and/or optimization of the Connected Product; "Derived Data" means i) all data or information that is derived by the GEA Group Companies (or third parties acting on their behalf) from Technical Data, including without limitation statistical or other analysis and data derived by means of algorithms or application of proprietary software; ii) all data or information that is derived by means of sensor fusion or other similar means or methods; and iii) all data where the Technical Data is aggregated together with other data (provided such aggregated data does not allow for identification of the Technical Data collected under this Contract or allow a third party to derive such data from an aggregated data set). Technical Data does not include any Derived Data.

10. Remedies and Limitations of Liability:

10.1 Reasons for Termination:

10.1.1 A party may terminate the Contract by giving written notice thereof to the other party, without the need for any court order or other judicial proceedings, if: (i) a provision of these Terms gives the party an express entitlement to terminate the Contract, (ii) the other party fails to perform any material obligation under the Contract and has not commenced a cure of the failure within thirty (30) days of receipt of written notice of such failure from the non-defaulting party and does not diligently pursue the cure thereafter, (iii) the other party becomes the subject of liquidation, bankruptcy or other insolvency proceedings, has a receiver appointed over any of its assets or undertakings, makes any arrangement or composition with its creditors, (excluding a scheme of arrangement as a solvent company for the purposes of amalgamation or reconstruction) or is the subject of any similar arrangement, event or proceedings. 10.2.1 Where Purchaser has a right to terminate the Contract pursuant to Clause 10.1.1 and Purchaser has terminated the Contract by giving timely written notice thereof, the liability of Seller to Purchaser upon such termination shall be to pay either the reasonable additional costs in excess of the Contract Price that are required to complete the Scope of Supply or the difference between the fair market value of the Scope of Supply as delivered and the Contract Price, whichever is less. To the maximum extent permitted by applicable law, such rights of Purchaser upon termination shall be to the exclusion of any other remedies that may be available to Purchaser in case of termination or rescission/withdrawal.

10.2.2 Seller shall have no liability for any other cost and expense, loss or damages howsoever incurred by Purchaser and, save for the obligations under Clause 9 and Clause 10.2.1 above, neither party shall have any further liability or obligation to the other party under or arising out of the Contract, to the maximum extent permitted by applicable law.

10.2.3 In case expressly stated in Seller's Offer or, as the case may be, in the Contract that Purchaser may be entitled to terminate the Contract for convenience or in case the Purchaser may be entitled to such right under the applicable statutory law and where Purchaser exercises such right the Seller shall be entitled to compensation as if the Contract had been terminated due to an event of Force Majeure according to Clause 6.8 above save that Seller shall also be entitled to payment of the full profit that the Seller expected under the Contract.

10.3 Termination by Seller:

Where Seller has a right to terminate the Contract pursuant to Clause 10.1 and Seller terminates the Contract by giving timely written notice thereof, the Seller shall be entitled to compensation as if the Contract had been terminated due to an event of Force Majeure according to Clause 6.8 above save that Seller shall also be entitled to payment in full of the profit that the Seller expected under the Contract. This Clause 10.3 shall not overrule Clause 4.11, but shall be cumulative, to the extent permitted by applicable mandatory law.

10.5 Exclusion of Certain Damages:

NOTWITHSTANDING ANY OTHER PROVISION TO THE CONTRARY, EXCEPT ONLY:

10.7 The expiry of the Warranty Period shall, to the maximum extent permitted by applicable law and save only as set out in the last sentence below, constitute conclusive evidence for all purposes and in all proceedings whatsoever between the parties that Seller has completed its obligations under or arising out of the Contract and performed the Scope of Supply and made good all Defects therein in accordance with its obligations under the Contract. After the expiry of the Warranty Period, all claims of any nature whatsoever the Purchaser may have against Seller, whether known or not, under or arising out of the Contract and the use of the Scope of Supply, and any right, cause of action and or remedy shall be deemed to be barred and extinguished. 11.1 The Goods shall comply with governmental directives, laws, rules, regulations, codes and standards, if any, that are expressly stated in Seller's Offer, as the same are in effect on the Base Date. If after the Base Date any Changed Law affects the Scope of Supply and/or the Seller's means or manner of executing its works and which the Seller is required by such Changed Law to comply with and implement, Seller shall be entitled to an equitable adjustment, including the remedies

If the Purchaser fails to strictly observe any of the obligations in this Clause, Purchaser shall indemnify, defend and hold Seller harmless from any resulting claims and liability arising out of loss or damage to any property or out of personal injury or death, save to the extent directly caused by the negligence or wilful act of Seller.

12. Amendment to the Contract:

- 12.1 No change in, addition to, or waiver of the provisions of the Contract shall be binding upon Seller or Purchaser, unless contained within an identified written formal amendment to the Contract and signed by both parties.

13. Export Control:

- 13.1 Purchaser acknowledges that the Goods to be provided by Seller are or may be controlled by Export Control Regulations which may result in an Export Control Event. In case of an Export Control Event Seller shall be entitled to all additional costs and expenses which may be needed for Seller to fulfil its obligations under the Seller's Offer or, in case of binding contract, the Contract, including costs and expenses needed to obtain an Export License. Purchaser agrees to provide to Seller without undue delay all necessary information that may be requested to obtain an Export Licence, such as end-user certificates. Seller will inform Purchaser about material delay to obtain an Export License, a revoked license or any prohibition to execute the Contract without undue delay.
- 13.2 If an Export License is denied or revoked or if an embargo prohibits the execution of the Contract or if any other Export Control Event will hinder Seller to fulfil one or more of its contractual obligations Seller shall be excused from the performance of its obligations under the Seller's Offer or, in case of binding contract, the Contract, with immediate effect. This shall, without limitation, also apply in case that Seller may be hindered to fulfil its contractual obligations due to the fact that any of Seller's suppliers or subSellers are hindered by an Export Control Event to supply the Goods all or in part. In any case Seller shall not be liable or accountable to Purchaser for any claims for delay, loss or damage in connection with an Export Control Event.
- 13.3 Subject to Clause 13.2, if Seller gives notice to Purchaser that its performance of the Seller's Offer or, in case of binding contract, the Contract will be hindered by Export Control Regulations and/or Export License or embargos, each party shall be entitled to terminate the Seller's Offer or, in case of binding contract, the Contract, by giving one week prior written notice, without need for any court order or other judicial proceedings. In the event of such termination Seller shall be entitled to all costs and expenses for all work in progress under the Contract or for which Seller is liable to pay to any supplier or subSeller due to the termination, as well as to all losses and damages arising from or related to the termination.
- 13.4 Purchaser shall implement and follow all necessary procedures to comply with Export Control Regulations related to the Goods to be provided by Seller, and guarantees not to engage in any activity which it or Seller reasonably believes could be subject to civil, criminal or administrative liability, including but not limited to the sale, lease, transfer, or sublicensing of any Goods without appropriate authorization. Purchaser shall indemnify and hold harmless Seller from and against any claim, proceeding action, fine, cost, loss and damage arising from or related to the breach of this warranty.

14. Data Processing:

- 14.1 Purchaser agrees that Seller will collect, process and use personal data and other data disclosed by Purchaser in the course of the business relation with Seller for the purpose of (1) managing and performing the Contract with Purchaser (which includes the creation and processing of invoices), (2) advertising and/or offering further goods and services to the Purchaser and/or (3) managing the business relationship with Purchaser through e. g. a customer relationship management system. Such data may include the following data categories of persons being employed or retained by Purchaser *inter alia* name, title, company, function within the company, business contact details (phone and fax number, e-mail address, mail address), history of orders, history of issues (e. g. warranty claims or disputes). 15. Miscellaneous:

- 15.1 If any provision of the Contract is determined to be invalid or unenforceable, this shall not affect the validity or enforceability of the remaining provisions and the parties will substitute the invalid or unenforceable provision by a valid provision that achieves as closely as possible the same economic effect.
- 15.2 Any Clause or paragraph headings or other headings appearing in the Terms are for reference only and shall not affect the construction of those Clauses or paragraphs. Words importing the singular shall include the plural and vice versa where the context requires.
- 15.3 Any reference to a statute or to regulations (whether or not specifically named herein) shall, but without prejudice to Clause 11 above, include any amendment or re-enactment thereof for the time being in force and shall include all instruments, orders, plans, regulations, bye-laws, permissions and directions for the time being made, issued or given thereunder or deriving validity therefrom.

- 15.6 The Contract sets forth the entire agreement between Seller and Purchaser with respect to the subject matter thereof and supersedes any previous agreement or arrangement between the parties. Except to the extent expressly and specifically set forth in the Contract, all oral representations, warranties, undertakings and other statements of any kind and all documents given or exchanged on or prior to the date of Contract (including any brochures or sales material of Seller) are expressly excluded and disclaimed by Seller. Purchaser acknowledges that it has not relied on and is not relying on any such representations, warranties, undertakings, statements or documents when entering into the Contract.
- 15.7 The Contract may not be assigned in any manner by either party without the other party's prior written consent, but this shall not require Seller to obtain any consent, or otherwise limit its entitlement, to subcontract any part or parts of its obligations under the Contract as it may see fit.
- 15.8 Purchaser shall ensure that Seller and its subSellers carrying out the Site Services (if applicable) are covered under an all-risk insurance policy applicable to the Scope of Supply and the Site. Such cover shall be primary and name Seller as an additional insured. Seller shall be entitled upon request to a copy of the policy in question. The deductible, if any, shall be at Purchaser's cost.

The Purchaser hereby consents to the personal jurisdiction of such courts for the purposes of any such action initiated by the Seller.

The governing laws of these Terms and the Contract shall be the substantive laws of Switzerland to the exclusion of its conflict of law principles.. The UN Convention on the International Sales of Goods shall not apply

ANNEX B

SPECIAL EXPORT CONTROL REGULATIONS

Export control requirements applicable for recipients ("Purchaser") of any goods and/or services (including software, if any) provided by or received directly or indirectly from any company, legal entity or permanent establishment ("Seller") belonging to or being directly or indirectly controlled by GEA Group AG registered in Düsseldorf, Germany ("GEA"):

Seller's ultimate parent company, GEA, is seated in Germany and therefore all group companies of GEA shall, to the widest extent permitted by the applicable laws, adhere to all Export Control Regulations in force in Germany including without limitation all Export Control Regulations enacted by the European Union including but not limited to Council Regulation (EU) Nos 833/2014 and 765/2006. It is therefore agreed that Purchaser shall, but only with respect to the Scope of Supply/Work to be provided by Seller and only to the extent permitted by the applicable law, comply with the Export Control Regulations in force in Germany regardless whether they are deemed applicable to Purchaser under international law.

Therefore, the following provisions shall be accepted by Purchaser and shall supersede and be substituted for all conflicting provisions agreed elsewhere:

1. If Purchaser acquires from Seller goods or technologies listed in Annexes XI, XX, XXXV or XL of Council Regulation (EU) No 833/2014, or any other Annexes that are or may become applicable to the Export Control Regulations specified above, Purchaser shall not sell, export or re-export, directly or indirectly, such goods to the Russian Federation or for use in the Russian Federation and if Purchaser acquires from Seller goods or technologies listed in Annexes XVI, XVII, XVIII or XXX of Council Regulation (EU) No 765/2006 or any other Annexes that are or may become applicable to the Export Control Regulations specified above, Purchaser shall not sell, export or re-export, directly or indirectly, such goods to Belarus or for use in Belarus;
2. Purchaser shall undertake its best efforts to ensure that the purpose of item 1 is not frustrated by any third parties further down the commercial chain, including by possible resellers;
3. Purchaser shall set up and maintain an adequate monitoring mechanism to detect conduct by any third parties further down the commercial chain, including by possible resellers, that would frustrate the purposes of item 1;
4. Any violation of items 1, 2 or 3 shall constitute a material breach of an essential element of the Contract, and Seller shall be entitled to seek appropriate remedies, including, but not limited to termination of the Contract; and
5. Purchaser shall immediately inform Seller about any problems in applying items 1, 2 or 3 including any relevant activities by third parties that could frustrate the purpose of item 1. Purchaser shall make available to Seller information concerning compliance with the obligations under items 1, 2 and 3 within two weeks of the simple request of such information.

Any breach of the foregoing obligations shall constitute an Export Control Event.
