These Terms shall prevail over any inconsistent or conflicting provision of the Contract (including Seller's Offer), except only where the Seller has by way of its Seller's Offer or a duly signed document expressly amended a provision of these Terms and has referenced the specific provision of these Terms being amended

1. **Scope of Supply:**

1.1 Seller's works shall be limited to the Scope of Supply. The Purchaser shall be responsible for the Purchaser Scope.

2. **Documents/ Contract Execution:**

2.1 Where Seller issues documents for approval, these must be approved and returned to Seller within no later than 7 days.

2.2 The Seller reserves the right to substitute items of the Scope of Supply provided that any such substitution shall be with an item of equal or better standard. Seller may execute the Contract pursuant to its own plans, procedures, and working methods, except to the extent they conflict with any express provision of the Contract. Purchaser shall ensure that each delivery and other activity of the Purchaser Scope is commenced, performed and completed in a timely and sufficient manner so the Seller is able to commence, perform and complete its Scope of Supply (including Site Services) in accordance with the Schedule and without delay, disruption, hindrance or obstruction of any kind

3. **Site Services:**

3.1 If Site Services are included in the Scope of Supply, Purchaser shall ensure that Seller has safe and appropriate access to the Site at all times required by Seller. Under no circumstances will Seller be responsible for the acts and/or omissions of any other contractor or person provided or made available by Purchaser or for works or any equipment supplied by them, either by way of a deemed employer or otherwise, or for their payment, welfare, provision of safety equipment or safe means of working, or for their work, productivity or workmanship. Purchaser shall be solely responsible for any failure of such persons or contractors to strictly comply with the instructions and requirements of Seller. Purchaser shall indemnify, defend and hold Seller harmless from any resulting claims and liability for loss or damage to any property or for personal injury or death in any way arising out of the acts or omissions of any such persons and contractors, save in each case to the extent directly caused by the negligence of Seller.

4. **Payment:**

4.1 Unless otherwise expressly stated in the Seller's Offer or Contract, payment of the Contract Price by the Purchaser shall be due upon the date the Contract has been signed by both Seller and Purchaser. All payments are to be made by electronic transfer, net cash without any deduction, in Australia dollars unless a different currency is stated in the Seller's Offer and within 14 days of the date of Seller's applicable invoice. Payment shall not be deemed effected until irrevocably available funds have been received in full by Seller in its nominated bank account.

Purchaser shall have no right of set-off or right to make any form of withholding or retention against any payment of the Contract Price. The Seller shall have no obligation to commence any Scope of Supply until the first instalment of the Contract Price has been received by the Seller. If any payment is not received by the applicable date for payment, Seller shall be entitled to interest thereon at calculated at the ANZ Australia variable interest rate as published daily in "the Age" newspaper plus eight (8) per cent. This rate is calculated monthly on the daily balance overdue. In addition, and upon 7 days' written notice to that effect, Seller may suspend all or part of its performance under the Contract until the payment and any due interest is received in full. Seller reserves all rights and remedies it has under applicable law to recover the Scope of Supply sold and delivered to Purchaser if Purchaser does not pay for the Scope of Supply by the payment due date, including the right to enter upon premises owned or occupied by Purchaser to remove the Scope of Supply; these rights and remedies are cumulative to those available under law.

5. **Taxes:**

5.1 The Contract Price and any other amounts to be paid to Seller are exclusive of, and Purchaser shall be responsible for, all duties, taxes (including value added, GST, sales, use, business, excise or withholding taxes), assessments or charges of any kind, except to the extent any taxes or other charges that are assessed on the profits of Seller or which under the applicable Incoterm relating to delivery of the Scope of Supply are payable by the Seller. If any duties, taxes, assessments or charges are imposed on Seller by authorities in the country where the Scope of Supply will be installed in connection with any Site Services and/or in connection with the Contract itself, Purchaser shall reimburse Seller all such amounts. Where the Purchaser is obliged by applicable law to make a deduction from any payment due to the Seller in relation to any such duties, taxes, assessments or charges, the Purchaser shall increase the payment to be made such that the net payment received by the Seller is without any such deduction.

6. **Delivery/ Risk of Loss:**

6.1 Seller shall deliver the Goods according to the applicable Incoterms by the date specified in the Schedule. If no Incoterm is stipulated, delivery shall be Ex Works manufacturer plant as specified by Seller. In case the respective stipulated Incoterm obliges Seller to perform any import formalities for the import into the country of delivery, Purchaser at its cost and risk is obliged to support

Seller in any way reasonably required by Seller. Transfer of risk of loss and damage to the Scope of Supply shall be in accordance with the stipulated Incoterm applicable at the date of Seller's Offer. The inclusion of any Site Services within the Seller's Scope of Supply shall not alter this transfer of risk of loss and damage and shall not create any assumption by Seller of any form of care, custody and control over any Purchaser Scope and/or the Site. Statements of packing, measurements and gross weight are an approximate guide and not binding on Seller. Seller may deliver the Scope of Supply from multiple locations, including different countries and may use different types of transport. Partial deliveries and trans-shipments are allowed.

- 6.2 Upon delivery or the provision of any Scope of Supply, Purchaser will inspect the relevant Scope of Supply and promptly (but in no event more than 7 days) inform Seller in writing of any Defect. If Purchaser fails to accept any Scope of Supply when tendered at the point of delivery, Seller may deliver the same to a bonded warehouse, at Purchaser's cost and risk, including insurance and storage costs, and shall be deemed to have fulfilled its delivery obligations under the Contract and be entitled to payment of any amounts contingent upon delivery. The Goods and documents included in the Scope of Supply shall be deemed accepted for all purposes at their respective delivery and Site Services shall be deemed accepted for all purposes at their respective completion, provided such acceptance shall not be with prejudice to Purchaser's warranty entitlements under Clause 8. In case of (i) failure by Purchaser to act within the time allotted or any suspension properly made by Seller; (ii) exceptionally adverse climatic conditions; (iii) any Force Majeure; (iv) any delay, disruption, impediment or prevention of Seller or any breach of contract caused by or attributable in whole or in part to Purchaser (including third parties for whom it is responsible), or (v) any other event or circumstance for which these Terms or the Contract gives Seller an entitlement under this Clause, Seller shall be entitled to payment by Purchaser of its additional Costs and to an extension of time for any delay incurred.

7. Ownership:

- 7.1 Title in the Scope of Supply will transfer to Purchaser when Seller has received payment of the Contract Price in full. This retention of title until payment in full shall not affect the passing of risk of loss or damage in the Scope of Supply pursuant to Clause 6. Until payment of the Contract Price is received in full, the Scope of Supply shall not be sold, pledged or otherwise encumbered or (unless otherwise specified in the payment terms) used for commercial production without Seller's prior written consent.

8. Warranties:

- 8.1 Subject to the provisions of this Clause 8, the Seller warrants that the Scope of Supply shall be free of Defects. This warranty shall expire on the last day of the Warranty Period.

- 8.2 Seller shall be responsible for remedying any Defect under Clause 8.1, provided that Purchaser promptly gives detailed written notice to Seller of the Defect and in any event within 7 days of discovery and before the end of the Warranty Period. To the maximum extent permitted by applicable law, the Seller shall have no liability for any Defect under Clause 8.1, latent or otherwise, for which it receives written notification after the Warranty Period. The warranty period of any Scope of Supply that has been rectified by the Seller shall expire at the expiry of the Warranty Period.

- 8.3 Where Seller is responsible for a Defect under Clause 8.1 and Buyer has given timely written notification, Seller shall investigate and rectify the same as soon as reasonably practicable (taking into consideration the nature of the Defect, lead-time for replacement parts, location of the site, etc.). Rectification of a Defect under Clause 8.1 relating to Goods included in the Scope of Supply shall be by way of repair or replacement, at the Seller's option, of the relevant part of the Goods that is defective. Rectification of a Defect under Clause 8.1 relating to services (including Site Services) and documentation included in the Scope of Supply shall be by way of re-performance by Seller of the relevant part of the service or documentation that is defective. Purchaser shall in each case give Seller all necessary and safe access to and possession of the Site. Where Seller fails to carry out its obligations within a reasonable time, Purchaser shall be entitled, upon giving not less than 10 days' prior written notice to that effect, to have the Defect in question rectified by a third party at the cost of Seller, to the extent Seller would have been responsible for such cost under Clause 8.1, Purchaser has reasonably mitigated its costs and Seller has not commenced rectification within the noticed period and diligently pursued rectification thereafter. Such rectification may include remediation implemented via a remote access solution (e.g., via an IoT edge device or IoT gateway). The Seller shall have no responsibility for any such works performed by a third party. Purchaser also grants Seller the right to use any remote access capability installed by or for Seller in relation to the Scope of Supply or installed equipment at the Site for investigating and rectifying Defects. Any replacement parts shall be delivered according to the same delivery (Incoterms) terms as specified in the Contract. Purchaser shall be responsible for all labour, equipment, costs used or incurred in the disassembly, removal, transport, installation and commissioning of repaired or replaced defective parts. Seller shall not be deemed to have breached any of its warranty obligations where it has rectified a Defect according to the foregoing. Should Purchaser disable or otherwise restrict, hinder or prevent Seller from remotely accessing the Scope of Supply or related installed equipment at the Site, Seller's ability to perform its warranty obligations may be impaired or delayed; any investigation or resolution of Defects by Seller may be incomplete or inaccurate; Seller may incur additional costs in connection with the investigation and/or the rectification of a Defect (including the incurrence of travel costs), which Seller will be entitled to recover from Purchaser; Seller's warranty obligations will be void insofar as Seller's ability to discharge such obligations are materially impaired.

- 8.4 Seller's responsibility for any Defect is subject to the condition that it is not caused by one or more of the following: (a) normal wear and tear of parts; (b) use of non-original spare parts; (c) use of feed, consumables or utilities not in strict conformity with the specifications stated in the Contract or in Seller's written manuals; (d) any failure of upstream and/or downstream equipment; (e) modifications without Seller's express prior written consent; (f) use of corrosive or abrasive substances; (g) the storage, handling, use, operation or maintenance of any Goods not in strict conformity with good engineering practice, the Contract or any written requirements of Seller, including any failure to comply with Seller's written manuals and instructions and Purchaser's own quality assurance requirements; (h) information, services, personnel, equipment or other items supplied by or for Purchaser; (i) failure to permit Seller to perform Acceptance Tests, supervision of installation and/or installation; and/or (j) other conditions or circumstances not due to the fault of Seller.

8.5 To the fullest extent permitted by applicable law, (i) Seller hereby excludes and disclaims all conditions, warranties, guarantees and representations that are not expressly set out in Clauses 8.1 or which are implied, statutory, customary or otherwise and which, but for this exclusion and disclaimer, would or might subsist in favour of Purchaser, including any warranties as to fitness for purpose or merchantability; (ii) Purchaser's remedies as set forth in Clause 8 above shall be the Purchaser's sole and exclusive remedies in respect of any defect in the Scope of Supply, including any Defect covered by Clause 8.1; and (iii) Seller shall not be liable for any loss or damage, including any loss or damages described in Clause 10 below, caused by or resulting from any breach of warranty or any defect, including any Defect covered by §8.1. If, notwithstanding the foregoing, it is ultimately determined that the exclusive remedies under this §8 fail of their essential purpose or Purchaser proves a right to reject the Supply (or a portion thereof), then Seller's liability shall be limited to refunding to Purchaser the portion of the Contract Price paid for the portion of the Supply for which the remedies failed of their essential purpose or rejected; such refund shall be considered by Purchaser as a fair and adequate remedy.

9. Confidentiality and IP; Technical Data and Smart Equipment:

9.1 Purchaser shall treat all information, drawings and data of any kind made available or provided by Seller under the Contract whether orally, electronically, in writing, visually (such as through site visits, tests or audits) or otherwise and regardless of whether marked "confidential" ("Confidential Information") as private and confidential. Purchaser shall not publish or disclose Confidential Information or any particulars thereof, without the previous written consent of Seller. In respect of any disclosure required by applicable law, Purchaser shall disclose only that portion of the Confidential Information it is legally required to disclose and to exercise all reasonable efforts to obtain confidential treatment for such Confidential Information. The intellectual property rights in any Goods, document or other information given or made available (by visual inspection or otherwise) to Purchaser under the Contract or applied to and embodied in the Scope of Supply and the Site Services shall remain the exclusive property of Seller (or its subcontractors). Purchaser shall have a non-exclusive, non-transferable and royalty free license to use the intellectual property rights in the Scope of Supply and any Confidential Information provided by Seller for the sole purpose of operating and maintaining the Goods provided under the Contract and strictly for the application and use set out in the Contract, subject at all times to subsisting third party rights and the obligation of confidentiality and the Seller's receipt of payment in full of the Contract Price. The Purchaser may transfer the intellectual property rights in the Scope of Supply only together with the title in the Scope of Supply.

9.2 To the extent the Scope of Supply includes the furnishing of engineering deliverables such as, but not limited to, engineering studies, process studies, detailed price proposals, preliminary drawings, preliminary bills of materials, process and instrumentation diagrams, or specifications not concurrent with a contract for the sale of tangible goods ("Engineering Deliverables"), such Engineering Deliverables are licensed to Purchaser by Seller on a fully-paid up basis only for the purpose of Purchaser utilizing such Engineering Deliverables to procure equipment from Seller and no other supplier. Purchaser is not authorized to use or disclose the Engineering Deliverables in connection with the purchase of equipment from any other supplier and Purchaser will indemnify and hold Seller harmless from any claims, damages, losses and costs (including reasonable attorney's fees) that result from the use of any Engineering Deliverables in conflict with this provision.

9.3 This clause applies insofar as any software, programming, control system or automation of any kind (collectively "Software") are included in the Seller's Scope of Supply. Software also includes all enhancements, upgrades and related documentation that Seller may make available in its sole discretion. Upon receipt of the full Contract Price and subject to Purchaser's compliance with its obligations under this clause, Seller grants Purchaser a non-exclusive and (except as stated expressly below) a non-transferable license to use the Software solely for operating the Goods for the purposes and within the requirements stated in Seller's Offer. Except as stated below, Seller warrants for a period of one year after the date (whichever is earlier) the Software is shipped or otherwise first made available to Purchaser ("Software Warranty Period") that the Software, when properly installed and used in conformity with the Contract, will function substantially in accordance with the software specifications (if any) stated in Seller's Offer. Seller does not warrant that the Software meets Purchaser's or any third parties' data protection or IT security requirements. If Purchaser discovers a nonconformity with the warranty and provides Seller promptly with a detailed written notice of the nonconformity within the Software Warranty Period (including a description of the nonconformity and complete information about its discovery), Seller will use commercially reasonable efforts to substantially correct the nonconformity by, at its option, one of the following: (i) providing a suitable fix, patch or workaround which may include a future revision of the Software; (ii) making available to Purchaser instructions for modifying the Software or indicating a reasonable way for avoiding the effect of the nonconformity; or (iii) making available at Seller's facility corrected or replacement Software. Seller will have no obligation under the warranty stated in this clause in case of improper installation of the Software or any modification or configuration of the Software not authorized in writing by Seller, nor shall it have any responsibility for any non-conformities arising from Purchaser supplied software or interfacing; in each such case, Purchaser shall defend and hold Seller harmless for any resulting loss, injury or damage. In respect of any Software that is acquired by Seller from third parties, Seller's obligation will be limited to transferring to Purchaser any warranty rights obtained by Seller in respect of that Software and the non-conformity. Except as may be stated expressly in this clause, the Software is licensed as is. Seller has no obligation to provide any maintenance, enhancements or upgrades. As between the Parties, Seller retains all copyright, trademarks, patents and other intellectual property rights in the Software and all information other than Purchaser generated information that may be used or transmitted via or processed by the Software. The Software may not be sold or otherwise transferred or given to any third party without the prior written consent of Seller and prior written agreement between Seller and the third party, except that the Software (and the license granted herein) may be transferred to persons who have acquired the Goods without obtaining Seller's prior consent. Purchaser shall not reverse engineer, modify or decompile the Software or in any other manner attempt to locate or identify the source code. To the extent

that the Software contains open source software (“OS-Software”), the following applies notwithstanding anything to the contrary in this Clause, Seller makes the OS-Software available to Purchaser on the basis of the applicable OS-Software license terms, which terms will govern Purchaser’s use of the OS-Software exclusively (including, for the avoidance of doubt, with respect to warranty and liability). To the extent permitted by law, Purchaser’s rights and remedies in respect of the Software are stated exclusively above.

- 9.4 Seller annually publicly discloses its audited greenhouse gas emissions according to the Corporate Value Chain (Scope 3) Accounting and Reporting Standard (“GHG protocol”). In order to increase the accuracy of its reporting on the use phase of its sold products (Scope 3.11 greenhouse gas emissions), Seller is interested in its customers’ specific energy grid mix. Thus, Purchaser shall disclose towards Seller the specific energy grid mix, i.e. the share of renewable energy used to power the specific sold product, to the extent such information is collected and tracked. Purchaser shall provide the required information and shall agree, that Seller may utilize this information in an aggregated form for its annual sustainability reporting and auditing. Apart from that, this information will be kept confidential.
- 9.5 Where Seller’s Scope of Supply includes a Connected Product or a Related Service, GEA Group Companies each have a perpetual, world-wide, irrevocable, non-exclusive, transferable, sub-licensable and royalty-free right to generate, collect, process, analyse, store, aggregate, and otherwise use Technical Data transmitted to the GEA Cloud from the Connected Product or Related Service for one or more of the following purposes: providing the Scope of Supply; discharging Seller’s warranty and other obligations under the Contract; troubleshooting, monitoring, improving the function of and further developing the Scope of Supply (including the Connected Product and/or Related Service) and the Installed Works; providing Purchaser with product support and information on the Scope of Supply and Installed Works; establishing benchmarks and optimization potentials and optimizing the Scope of Supply and Installed Works; developing, designing, engineering, manufacturing, supplying, automating, improving, updating, monitoring and/or servicing equipment, software, cloud-based solutions, processes and services; creating and modifying algorithms, statistical analyses and artificial intelligence solutions; optimizing project execution and similar capabilities; supporting the marketing and sales efforts; and generating and using for commercial purposes any Derived Data, including with the aim of making such Derived Data available to third parties; and other similar purposes. Seller shall exclusively have all rights, title and interest in and to all Derived Data, provided that Purchaser may use any Derived Data provided to it via a Connected Product or a Related Service for operating and maintaining the Scope of Supply and auxiliary equipment at the Site.
- 9.6 Purchaser will transmit to the GEA Cloud such Technical Data as is needed or appropriate for Seller to discharge its warranty and other obligations under this Contract. Further, upon a GEA Group Company’s written request, Purchaser will undertake such measures as may be reasonably required to enable such company’s secure access to the Scope of Supply, Installed Works and related Technical Data and to provide at its discretion updates to the installed automation, software and control systems. Purchaser will enable Seller to connect, or if agreed Purchaser will connect, the Scope of Supply (or a portion thereof) during its installation or (if requested by a GEA Group Company) at a later point of time and the Installed Works (if and when requested by a GEA Group Company) to Seller’s cloud and/or IT environment or other similar solution. Purchaser will ensure that the internet or other connection to the IoT edge device or IoT gateway is fully accessible to Seller remotely and at Site and the connection meets such requirements (e.g., configuration, security, etc.) that may be issued by Seller from time to time or which are recommended or required by applicable regulations or standards. Nothing in these Terms obligates Seller to provide digital solutions; Purchaser acknowledges that Seller may offer from time to time digital solutions for the Scope of Supply and or Installed Works pursuant to supplemental terms. This clause does not result in any warranty or other similar obligation being given or undertaken by Seller in respect of any Technical Data or Derived Data. Seller may, in its discretion, delete any stored Technical Data at any time, provided such deletion will be in accordance with applicable laws. Except to the extent required by applicable law, nothing in these Terms requires Seller to provide any access to Technical Data or make such data available where doing so i) would result in disclosure of Seller’s trade secrets; ii) could undermine the security or safety of the Scope of Supply; or iii) would result in the disclosure of data relating to the testing of new products, substances or processes that are not yet placed on the market.
- 9.7 As used in these Terms, “GEA Group Companies” means Seller and its affiliated companies; “Connected Product” means a physical product at the Site that via a component (e.g., an IoT edge device or IoT gateway), operating system or other means obtains, generates and/or collects Technical Data and communicates, or is intended by Purchaser and Seller to communicate such data to Seller’s cloud and/or IT environment or other similar solution; “Installed Works” means the equipment, automation, software and control systems at the Site to which the Scope of Supply relates or is connected; “Related Service” means a digital service, including software or a cloud-based solution, that enables a GEA Group Company or a third party acting on its behalf to obtain, generate and/or collect Technical Data where the service is connected to the Scope of Supply or the Installed Works in such a way that its absence would prevent the Connected Product or Installed Works from performing one or more of its functions or which adds to, monitors, updates, optimizes, modifies or adapts the functions of the Scope of Supply or Installed Works; “Technical Data” means raw product data generated by the use of a Connected Product or Related Service, including relevant metadata that make the raw data usable, including without limitation data regarding the condition, operation, efficiency, productivity, availability, maintenance, status, malfunction and/or optimization of the Connected Product; “Derived Data” means i) all data or information that is derived by the GEA Group Companies (or third parties acting on their behalf) from Technical Data, including without limitation statistical or other analysis and data derived by means of algorithms or application of proprietary software; ii) all data or information that is derived by means of sensor fusion or other similar means or methods; and iii) all data where the Technical Data is aggregated together with other data (provided such aggregated data does not allow for identification

of the Technical Data collected under this Contact or allow a third party to derive such data from an aggregated data set). Technical Data does not include any Derived Data.

10. Limitations of Liability:

- 10.1 NOTWITHSTANDING ANY OTHER PROVISION TO THE CONTRARY, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, AND REGARDLESS OF THE CIRCUMSTANCES OR THEORIES ON WHICH ANY LOSS, DAMAGE OR LIABILITY MAY BE ASSERTED INCLUDING TERMINATION, BREACH OF CONTRACT OR STATUTORY DUTY, NEGLIGENCE OR OTHER TORT, STRICT LIABILITY, INDEMNITY, RESCISSION / WITHDRAWAL, PRICE REDUCTION OR OTHERWISE:
- (a) SELLER SHALL IN NO CASE WHATSOEVER BE LIABLE FOR ANY LOSS OF REVENUES OR PROFITS; LOSS OF OPPORTUNITY, PRODUCTION OR CONTRACTS; LOSS OF USE; STANDBY COSTS; LOSS OF OR DAMAGE TO FEED, RAW MATERIALS, GASES, UTILITIES OR PRODUCT; PLANT DOWNTIME OR DELAYS; LOSS OF GOODWILL; LIQUIDATED DAMAGES OR PENALTIES IMPOSED ON PURCHASER BY ITS CUSTOMERS OR THIRD PARTIES; PURCHASER'S CONTRACTUAL LIABILITY TOWARDS ANY THIRD PARTY; RECALL COSTS; ANY DAMAGES FINES OR PENALTIES PAYABLE BY PURCHASER; OR OTHERWISE FOR ANY FINANCIAL OR ECONOMIC LOSSES OR DAMAGES, AND IN EACH CASE IRRESPECTIVE WHETHER THE LOSSES OR DAMAGES IN QUESTION ARE DEEMED TO BE DIRECT, CONSEQUENTIAL, INDIRECT OR OTHERWISE, OR FOR ANY CONSEQUENTIAL, INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE OR EXEMPLARY, LOSSES OR DAMAGES HOWSOEVER CAUSED OR ARISING,
 - (b) SELLER'S MAXIMUM AGGREGATE LIABILITY TO PURCHASER UNDER OR IN CONNECTION WITH THE CONTRACT SHALL IN NO CASE EXCEED IN THE AGGREGATE 25% OF THE CONTRACT PRICE AS RECEIVED BY THE SELLER (UNLESS PURCHASER IS ENTITLED TO A REFUND OF THE ENTIRE CONTRACT PRICE OR PORTION THEREOF PURSUANT TO §8.5, IN WHICH CASE SELLER'S AGGREGATE LIABILITY SHALL BE LIMITED TO SUCH REFUND), IRRESPECTIVE WHETHER SUCH LIABILITY ARISES BY WAY OF BREACH OF CONTRACT (INCLUDING TERMINATION) OR OF STATUTORY DUTY, NEGLIGENCE OR OTHER TORT, STRICT LIABILITY, INDEMNITY, CONTRACT PRICE REDUCTION OR REPAYMENT, TERMINATION, RESCISSION/WITHDRAWAL, MAKE GOOD OR REMEDIATION OR OTHERWISE.
- 10.2 All claims of any nature whatsoever the Purchaser may have against Seller, whether known or not, under or arising out of the Contract, and any right, cause of action and or remedy shall be deemed to be barred and extinguished upon expiry of the Warranty Period.

11. Permits / Safety:

- 11.1 Purchaser shall be responsible for (i) all permissions, consents and permits in connection with the Site, and with owning, erecting, testing, commissioning, operating and maintaining the Goods and any related equipment, plant, facilities or utilities, and for the performance of the Site Services (if applicable); (ii) maintaining the Site in a safe working condition and as a safe place of work for all personnel at the Site at any time, providing safe means of access to the Scope of Supply at all times, conducting all activities on the Site in a safe manner and as prescribed by applicable directives, laws, rules, regulations, codes and standards and as set forth in the operating and maintenance manuals and instruction sheets furnished by Seller; (iii) not removing or modifying any safety device, guard or warning sign provided as part of the Scope of Supply. If the Purchaser fails to strictly observe any of the obligations in this Clause, Purchaser shall indemnify, defend and hold Seller harmless from any resulting claims and liability arising out of loss or damage to any property or out of personal injury or death, save to the extent directly caused by the negligence of Seller.

12. Export Control:

- 12.1 Purchaser acknowledges that the Goods to be provided by Seller are or may be controlled by Export Control Regulations which may result in an Export Control Event. In case of an Export Control Event, Seller shall be entitled to all additional costs and expenses which may be needed for Seller to fulfil its obligations under the Seller's Offer or, in case of binding contract, the Contract, including costs and expenses needed to obtain an Export License. Purchaser agrees to provide to Seller without undue delay all necessary information that may be requested to obtain an Export Licence, such as end-user certificates. If an Export License is denied or revoked or if an embargo prohibits the execution of the contract or if any other Export Control Event will hinder Seller (or any of its suppliers or subcontractors) to fulfil one or more of their obligations, Seller shall be excused from the performance of its obligations under the Seller's Offer or, in case of binding contract, the Contract, with immediate effect. In any case Seller shall not be liable or accountable to Purchaser for any claims for delay, loss or damage in connection with an Export Control Event. Subject to the foregoing, if Seller gives notice to Purchaser that its performance will be hindered by Export Control Regulations and/or Export License or embargos, each party shall be entitled to terminate the Seller's Offer or, in case of binding contract, the Contract, by giving one week prior written notice. In the event of such termination Seller shall be entitled to all costs and expenses for all work in progress under the contract or for which Seller is liable to pay to any supplier or subcontractor due to the termination, as well as to all losses and damages arising from or related to the termination. Purchaser shall follow all necessary procedures to comply with Export Control Regulations related to the Goods to be provided by Seller, and guarantees not to engage in any activity which could be subject to civil, criminal or administrative liability, including but not limited to the sale, lease, transfer, or sublicensing of any Goods without authorization. Purchaser shall indemnify and hold harmless Seller from and against any claim, proceeding action, fine, cost, loss and damage arising from or related to the breach of this warranty.

13. Data Processing:

- 13.1 Purchaser agrees that Seller will collect, process and use personal data and other data disclosed by Purchaser in the course of the business relation with Seller for the purpose of (1) managing and performing the Contract with Purchaser (which includes the creation and processing of invoices), (2) advertising and/or offering further goods and services to the Purchaser and/or (3) managing the business relationship with Purchaser through e.g. a customer relationship management system. Such data may include the following data categories of persons being employed or retained by Purchaser *inter alia* name, title, company, function within the company, business contact details (phone- and fax-number, email-address, mail address), history of orders, history of issues (e.g. warranty claims or disputes).
