

Chosen 10,000 times for 10,000 good reasons

Reason 9,378:
Innovation built into every single detail

10,000 times and going strong, our customers decide the GEA spreader is the preferred choice over any other manufacturer.

- The simple and effective steering system for superior maneuverability
- Stainless steel tank welded inside and out for increased durability
- Swivel hitch for better interaction between tractor and spreader
- Epoxy primer and urethane paint finish for excellent corrosion resistance
- Industry standard-setting tank shape style design
- Bolt on components for easy maintenance
- Specially-designed suspension system for minimal compaction
- Limited maintenance requirements

GEA manure spreaders, chosen for performance, reliability and innovation.

Our customers frequently and successfully put their GEA liquid manure spreaders to the test. We provide the most dependable and reliable spreaders on the market!

PK Winter Farms, Sheldon, Iowa, USA

10,000th reason:

"I have been farming for 35 years and we are very excited about our new 10,500-gallon EL48-8D 8800 manure spreader from GEA," said Paul Winter. "We really like the job it does."

RCB Honey Haulers, Remsen, Iowa, USA

Reason 8,837:

"We use GEA liquid manure spreaders because of the easy maintenance, and we barely have any repairs," said Roger Bohnenkamp. "We had used another brand prior to GEA, and we just could not keep them hauling. I would recommend GEA equipment because I have had other spreaders, and GEA is second to none."

Dibbet Farm and Custom Hauling, Sioux Center, Iowa, USA

Reason 7,128:

"What I like best about my GEA spreader is the options that it has—an hydraulic-powered wheel-steering and weight-transfer system to lift the spreader front axle when returning empty," said Jerry Dibbet. "It helps reduce the hitch *slapping* due to the negative tongue weight with the larger tool bars. I also like the easy maintenance and how effortless the pull is, which leads to better fuel economy and quicker cycle times."

Forfait Somerset, Plessisville, QC, Canada

Reason 6,552:

"In my business, I must be able to go fast. The machinery has to work hard and it must last," said Yvon Guirard. "When your tank is 14 years old (as mine is) and it is still reliable and efficient, it becomes very cost effective."

Spreader models

8-Wheel Steerable Liquid Manure Spreader

Models	Capacity		
EL48-8D 8800	10,500 gal US	8,800 gal UK	40,000 L
EL48-8D 7900	9,500 gal US	7,900 gal UK	35,900 L
EL48-8D 4832	5,800 gal US	4,832 gal UK	22,000 L

6-Wheel Steerable Liquid Manure Spreader

EL48-6D 6100	7,300 gal US	6,100 gal UK	27,750 L
EL48-6D 6000	7,200 gal US	6,000 gal UK	27,275 L
EL48-6D 5600	6,700 gal US	5,600 gal UK	25,500 L
EL48-6D 5250	6,300 gal US	5,250 gal UK	23,850 L
EL48-6D 4800	5,800 gal US	4,800 gal UK	21,800 L
