

Video support for remote assistance in real-time

KEEPING IT RUNNING

## GEA Remote Support

Connects you securely and easily with GEA's experts

### Real-time streaming

GEA Remote Support is a service that provides real-time streaming with our GEA experts. You can easily locate yourself in the production site and use a commercially available mobile device to stream real-time and resolve an issue with the help of our GEA experts.

### Your benefits at a glance

- Easy to setup – no need to install separate application
- Fast communication and support with no physical contact
- Bi-directional streaming of information

# GEA Remote Support

Connects you securely and easily with GEA's experts

## Simple setup

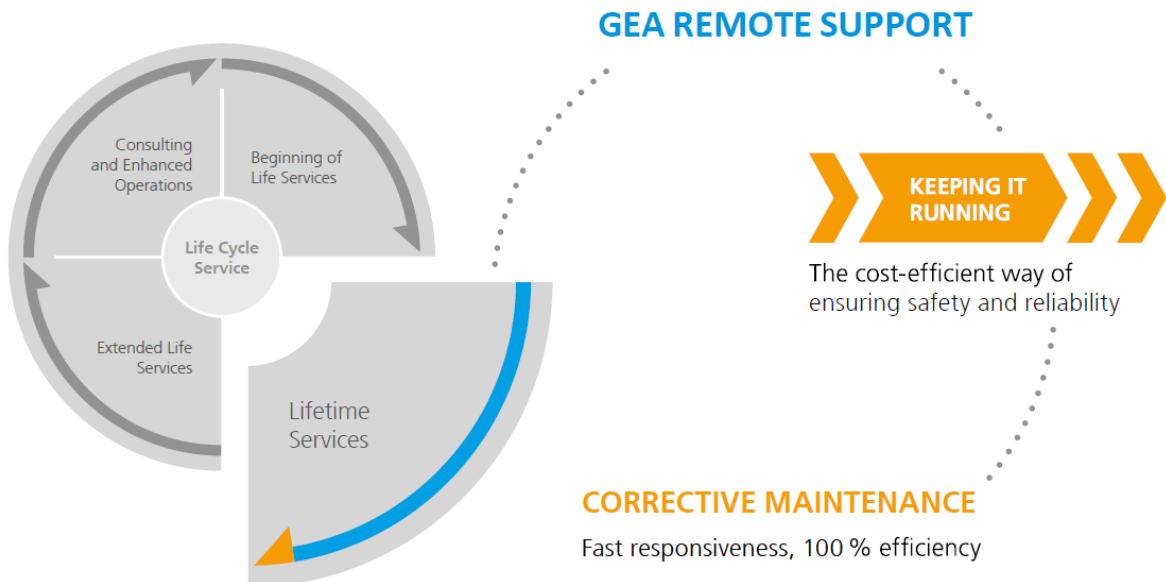

You just need a mobile device with internet access.

With a simple connection through email or SMS, you will be able to have video conversations, send high-resolution pictures to each other, send descriptions/instructions via a chat function, and annotate live during the conversation.

## Contact us

**Our local offices can offer you GEA Remote Support with immediate effect.**

## GEA Service – For your continued success
