GEA Hilge HYGIA™: Two Functions - One Pump

Pump over and transfer with the SAME PUMP

The power of a centrifugal with the handling of a PD

The GEA Hilge Pump line stands alone on the front lines of versatility and ingenuity for all your pumping needs.
GEA Hilge HYGIA™: Two Functions - One Pump

Unique pump and impeller design allows you to pump over and transfer with the same pump.

**Designed for exceptional versatility**

The vast range of the GEA Hilge HYGIA pump and our unique impeller design allows you to quickly, yet gently, move large volumes. Then, with a quick switch of the impeller, use the same pump for pump overs without sheering the product or clogging.

- Quick yet gentle
- High flows at both high and low pressures
- Unique impeller design: no sheering or clogging of seeds, skins, stems, lees, tannins, etc.
- Easy maintenance

**Three standard sizes**

- GEA Hilge HYGIA – 2.5”/2.5” – 5 HP
- GEA Hilge HYGIA – 3”/3” – 7.5 HP
- GEA Hilge HYGIA – 4”/4” – 10 HP
